PROFESSIONAL SUMMARY

Data Science graduate from FAST NUCES Islamabad with hands-on experience building and deploying machine learning, LLM, automation, data, and full-stack systems. Strong across the full delivery lifecycle, from data preparation and model evaluation to FastAPI services, PostgreSQL, Docker, and responsive interfaces. IEEE-published with practical problem solving and end-to-end project ownership.

EXPERIENCE

Data Science and Analysis Trainer - Future Connect Training and Recruitment Ltd *Aug 2026 - Present | Islamabad*

- Deliver practical training in Python, SQL, data analysis, machine learning, Power BI, Tableau, automation, and project delivery; coach learners through debugging, technical documentation, and career preparation.

Full Stack Media Engineer - Speeqr *2026 - Present | Remote*

- Diagnosed real-time audio synchronization with NTP and GCC-PHAT alignment, fixed a 16 kHz to 48 kHz sample-rate mismatch, and reduced end-to-end latency from 3 to 4 seconds to under 1 second using adaptive jitter buffering.

AI Automation Engineer - Escaplix *2025 | Islamabad | 3 Months*

- Designed LLM-based automation pipelines that connected model APIs with internal tools, data transformation, validation, and downstream actions for context-aware business workflows.

AI and ML Freelancer - Self-Employed *2022 - Present | Remote*

- Built and deployed classification and regression services through REST APIs, together with data pipelines, automated workflows, and client-facing insight dashboards.

Customer Service Representative - ARXA Communication and KAACHO *2022 - 2023 | Islamabad*

- Managed customer conversations, issue resolution, CRM records, and follow-up workflows while developing clear communication, ownership, and client-handling skills.

SELECTED PROJECTS

SkinVisionAI - AI-Powered Skin Disease Diagnosis System *2025 - 2026*

ConvNeXt-V2 | PyTorch | FastAPI | PostgreSQL | JWT | RAG | Gemini | Groq

- Built an end-to-end application for 11-class skin disease diagnosis with sub-second GPU inference, ROI preprocessing, and RAG-grounded report generation with automatic fallback across three LLM providers; validated with 23 unit tests.

SME Retail and Inventory Intelligence Platform *2026*

FastAPI | Go | Next.js | Angular | PostgreSQL | Docker | Kubernetes

- Developed a CSV-first retail platform with per-SKU demand forecasts, inventory insights, secure natural-language analytics, role-based access, and a containerized multi-service architecture.

WGAN-GP Pneumonia Detection - Generative AI and Ensemble Learning *2026*

WGAN-GP | TensorFlow | VGG16 | ResNet50 | Transfer Learning | IEEE Conference Paper

- Implemented WGAN-GP to synthesize chest X-rays for class imbalance and paired it with a VGG16 and ResNet50 transfer-learning ensemble for pneumonia detection; published as an IEEE conference paper.

PhishTransformer - Phishing URL Detection *2025*

Python | CNN | Transformer | Deep Learning | 100K URLs

- Developed a hybrid CNN and Transformer classifier using character-level URL encoding and large-scale training data, achieving 99.66% accuracy.

Additional Data and Machine Learning Projects *2024*

XGBoost | LSTM | PyTorch | CUDA | Python Multiprocessing | MySQL | ETL | Star Schema

- Forecasted next-day electricity demand for 10 US cities using Random Forest, XGBoost, LSTM, anomaly detection, and stacked ensembles; built a Walmart star-schema warehouse with a Python Hybrid Join ETL pipeline and 20 BI queries; reduced ML pipeline runtime by over 70% using CUDA and multiprocessing.

EDUCATION

BS Data Science - FAST NUCES Islamabad *2022 - 2026 | Graduated*

Coursework: Machine Learning, Deep Learning, NLP, Data Mining, Statistics, Databases, Software Engineering, and Data Structures and Algorithms.

TECHNICAL SKILLS

Machine Learning and AI: PyTorch, TensorFlow, Scikit-learn, Keras, Hugging Face, CNNs, GANs, transfer learning, RAG, LLM APIs, prompt engineering

Data and Backend: Python, SQL, Pandas, NumPy, FastAPI, Flask, REST APIs, PostgreSQL, MySQL, MongoDB, ETL, Power BI, Tableau

Engineering and Automation: JavaScript, Next.js, React, Angular, Docker, Git, Linux, AWS EC2, Postman, n8n, Zapier

SOFT SKILLS

Problem Solving | Research Mindset | Communication | Leadership | Team Collaboration | Attention to Detail | Ownership | Adaptability | Client Handling
